

# Installation Guide: Robo3T

---

## 1. Windows

- a. Open the link given below and download Robo3T for Windows.  
<https://robomongo.org/download>
- b. Be sure to click on the "Download Robo3T only button"
- c. Once you click on the concerned button, a form will appear. Fill the required fields and click on Download for Windows.
- d. You have two options to chose from while downloading the setup. You may either directly download the executable setup (.exe) or the zipped setup (.zip)
- e. If you have downloaded the zipped setup, extract the zip file. If you have downloaded the executable file, you may ignore this step.
- f. Execute the setup file for Robo3T.
- g. After selecting the location for installation, carry on with the standard installation, and you are good to go!

## 2. MacOS

- a. Open the link given below and download Robo3T for MacOS.  
<https://robomongo.org/download>
- b. Be sure to click on the "Download Robo3T only button"
- c. Once you click on the concerned button, a form will appear. Fill the required fields and click on Download for Mac.
- d. Once the download is complete, execute the setup file for Robo3T.
- e. Carry on with the standard installation, and you are good to go!
